FBIS-2427/88
24 June 1988

MEMORANDUM FOR: Distribution

FROM:

Chairman, Configuration Control Board

STAT

SUBJECT: Results of the 24 June 1988 CCB Meeting

1. On 24 June 1988, an FBIS CCB Meeting was held in the ESG Conference Room. All CCB Members were present except for C/E&PS and C/FED. The results of the meeting are as follows.

2. HU-RFC-C-005-88, Wire Service Select Queue Changes, was presented by DC/ESG, who advised the CCB that ESG plans to implement the change on the ATEX system. However, there is a possibility that this change may slow the receipt of the service messages which the Wire Service will still receive. ESG is coordinating a test with the Wire Service during which the Wire Service will spike all messages not desired to a special queue so that ESG can verify the codes that this change will sort. C/ADD reported that LEC had not been requested to provide a ROM cost to implement this change on the VAX system. C/ESG requested that C/ADD obtain this ROM cost from LEC. The CCB approved this RFC as presented. ESG and the Wire Service will monitor any delay in the receipt of service messages after the change is made. If there are unacceptable delays, the change will be backed out and the RFC will be returned to the CCB with the ROM cost of making the change on the VAX.

3. CO-RFC-C-003-88, Update to the FBIS/AUTODIN ICD, was approved with the following modifications:

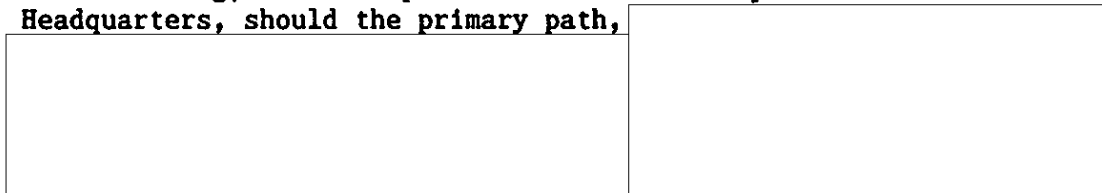

a. On circle page 9, paragraph 1.1, change the second sentence to read, "... communication between FBIS Headquarters and affected FBIS field bureaus."

b. On circle page 9, paragraph 1.1, change the third sentence to read, "... and the signal data paths for each affected FBIS Bureau."

c. On circle page 9, paragraph 1.2, change the first sentence to read, "The DCA AUTODIN Network is the primary transmission media for passing message traffic between FBIS Headquarters and affected FBIS field bureaus."

SUBJECT: Results of the 24 June 1988, CCB

d. On circle page 12, paragraph 3.1, after sub-paragraph b, add the following, "AUTODIN provides an alternate path to FBIS Headquarters, should the primary path,

e. On circle page 12, paragraph 3.2, change the first sentence to read, "AUTODIN field bureaus shall be able ..."

f. On circle page 13, add KG-84s to the figure on both sides of the interface for both ASC lines.

g. On circle page 14, paragraph 3.2.1, change the first sentence to read, "AUTODIN field bureaus shall interface ..."

4. HU-RFC-C-003-88, Update to the FBIS Operational CM Plan, was approved with the following modifications:

a. On circle page 12, paragraph G1.3, sub-paragraph c, delete "DA 543" from the first sentence. Change the last sentence to read, "... for a period of over two weeks,..."

b. On circle page 12, paragraph G1.3, sub-paragraph d, add the following sentence. "The library will also maintain a copy of all change pages to provide an audit trail of changes to each document."

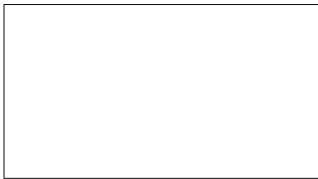

5. The SI is instructed to update the AFS System Specification, the FBIS/AUTODIN ICD, and the FBIS Operational CM Plan in accordance with the above direction and provide change page sets or new versions to holders of the documents.

6. Due to the installation and transition of the AFS Classified Segment, the next FBIS CCB meeting is tentatively scheduled for late October in the ESG Conference Room, 3S12E. The agenda for this CCB will be published when it is finalized. Any critical RFCs which require CCB action prior to the next CCB meeting will be handled expeditiously on a case by case basis.

SUBJECT: Results of the 24 June 1988, CCB

7. If there are any questions concerning the results of this CCB,
please contact the CCB Secretariat, [redacted]
